PROFILE OF CASTANG WINE SHIPPERS

Castang Wine Shippers and Merchants is an independent family business established in 1979. Currently we operate throughout South West England, together with key accounts in other areas of the country. During the past 40 years we have steadily enlarged our portfolio of wines and agencies by increasing our activities firstly throughout Europe and more recently in the new world wineries. Our range now exceeds 350 wines. The business has a wide variety of skills and experience which allows us to offer a comprehensive service together with advice to its clients.

We hope for continued expansion of our activities in the future, mainly in the field of shipping wines and wine related accessories. We enjoy a close relationship with many of the leading growers and estates throughout Europe and also with many producers in new world wineries. We will continue to increase our selections from all wine producing countries and search for exciting new wines.

The main activity of the company is the importation and supply of wines to wine merchants, hotels, restaurants, wine bars and universities together with an active private and corporate clientele list.

SPECIALITIES OF THE COMPANY

Since 1979 we have specialised in the supply of wines purchased direct from growers and producers as well as the more traditional method of purchasing through negociants. We have visited vineyards all over the world to assess the quality of wines and to check methods of vinification. Our regular contact and long term relationships with the growers helps to ensure high quality, thus avoiding badly made and dishonest wines. We would be pleased to help our clients with their plans to visit any of our suppliers. Hopefully our list represents not only genuine value for money but also provides a selection of new, interesting, and unusual wines.

Over the years we have placed much emphasis on the selection of top quality country and house wines. With so many good wine makers around the world combined with modern wine making techniques, it never ceases to amaze us how many anonymous, acidic and overpriced poor quality wines are still available on the market. CAVEAT EMPTOR !!!
